Welcome back to Term Three. Our focus for this semester moves towards furthering student study choices, career pathways and job readiness. The 2022 VETDSS enrolments at GOTAFE, and VETIS are now taking expressions of interest for enrolments. It is essential that students interested in courses complete pre-enrolment paperwork as soon as possible to avoid disappointment, as courses fill very quickly in some industry areas.

VCAL students will also complete a financial literacy unit as part of their numeracy unit to ensure they are job ready and aware of their financial obligations, how to apply for a Tax File Number, good and bad credit types and what to watch out for when signing contracts for when they enter the work force as casuals, part-time or full time employment.

We are planning GOTAFE and Latrobe tours through our partnership with the Lookout Foundation, speak with your Learning Mentor if you are interested.

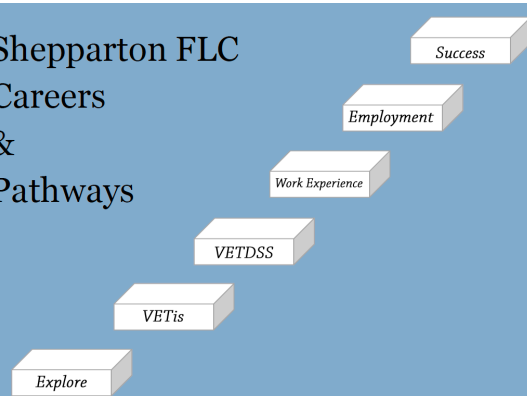

A number of short courses are being planned, we have confirmed dates for First Aid and Stop/Slow courses. Students can still add their names to the above courses and the other courses still being finalised.

As always the pathways team are available to answer any careers questions you have.

# VETIS 2022

## DIGITAL MEDIA & TECHNOLOGY

Information, Digital Media & Technology (IDMT) is the entry level study of the knowledge of computing within a business.

We look at hardware, software, problem solving and writing for business, customers & colleagues, ICT Occupational Health and Safety, Operating Systems and maintaining a website (but not really looking at website building or code.)

Unfortunately, this course **DOES NOT** contain game development or coding or website development. *Sorry.*

What you will need access to: the internet, Microsoft Teams, Word, Excel, Access, Adobe Acrobat, an email address, some knowledge of computer hardware and some IT problem solving skills.

## Animal Studies

This course will give you the skills for entry-level work in the animal care industry.

You will learn how to assist with general animal care, provide food and water for animals and follow WH&S procedures in the workplace.

This is a Vocational Education and Training in Schools Program for students wanting to gain basic skills and knowledge to become animal carers. You will learn how to care for a variety of animals and provide information on companion animals, products and services.

### **Job role titles covered by this course may include:**

- ♦ Animal care attendant
- ♦ Animal shelter attendant
- ♦ Kennels and cattery Attendant
- ♦ Pet shop attendant
- ♦ Dog groomer
- ♦ Veterinary Nurse
- ♦ Zoo attendant
- ♦ Animal research facilities

## CERTIFICATE II IN CREATIVE INDUSTRIES

Certificate II in Creative Industries is a course which gives students the opportunity to explore a variety of areas in the arts and creative industries field. The program covers areas of study in working with others, communication, critical thinking, personal management and self-awareness as well as building and developing student skills in the creative arts and design.

Certificate II in Creative Industries can be tailored to be focused on the visual arts, the performing arts or digital media. Depending on the interests of the students undertaking the course.

This course would suit any student who has a passion for being creative and innovative, students interested in a career in the arts or those who simply love to draw or paint.

This course will be run through on-site and remote learning channels by a trainer with over 15 years' experience in the arts industry.

## Certificate II in Music industry

The Certificate II in Music Industry (performance) is a course to provide strong foundations in music essentials in performing, recording and learning about the various careers in the Music Industry. This course will teach you music knowledge, listening skills, how to play simple music pieces and basic music theory

You don't need any experience with music to do this course but do need a passion for music and a willingness to work and rehearse with others.

The course is run by John Beddoe, a multi instrumentalist with many years of experience in performing and teaching. He is supported by Josh Lovett, an accomplished songwriter, rapper and music technology expert. Both teachers aim to provide a supportive and positive learning space for students to excel and explore their creative capabilities.

The course is a one full day per week, run over 2 years. However, it is possible to complete in one year if the student is highly motivated and organised to do so.

## Certificate II in Business

This course provides you with the skills to gain an entry level job in either a small or large business organization OR start your own small business. You will gain valuable insight as to how businesses are organized and how they run to be effective and productive. You will learn and apply techniques for: setting goals, keeping organized, having a realistic schedule, communicating effectively, completing projects at a high standard, understanding and following legal requirements and work place policies, using digital technologies for the purpose of conducting professional business, how to develop a competitive edge and how to remain attractive to potential clients.

This course is useful for those looking at working in administrative and managerial roles (reception/sales/IT) and for those who can see themselves starting their own business in the future either from the ground up or stepping out after learning a trade to become their own boss. If nothing else the skills learned will assist you to become more personally organized, a better verbal and written communicator and more competent with the use of digital technology. This course is delivered by a staff member who started three profitable businesses from scratch and was self employed for twelve years.

## Certificate II in Community Services

Community Services is a course that allows students to gain a foundation knowledge in relation to working with people in the community services field. It covers many aspects that individuals are required to know when working with people who need support to maintain their independence.

Topics covered in the course include how to best communicate with people who are vulnerable or needing care and the basic skills used in gaining rapport or improving relationships with people. In particular there is a real focus on how best to work with people who are experiencing challenging times in their lives. Students gain an understanding about the impacts of issues in society like drugs and alcohol and domestic violence. These issues can have a significant impact on the vulnerable in our community like the youth, the elderly and people with disabilities. Other topics include learning about people requiring services such as housing support, job support, assistance with daily living skills and those who may need counselling.

Throughout the course, real life scenarios are provided to students. This allows students to reflect on how they would respond to these different scenarios. Support is given to students orally and examples are provided to give students further clarity surrounding the subjects they are learning about. Students are encouraged to self-reflect on their own behaviour and how this may influence other people in the work place. They are taught about cultural differences and encouraged to consider how they can be more accepting of differences when working with people from a variety of backgrounds.

On completing the Certificate II in Community Services, students will have gained knowledge that will allow them to communicate more effectively in work environments such as child care, aged care, disability and the youth sector. They will be able to recognise and make referrals to services based on client need. This base knowledge will support students to go onto further study in either TAFE to complete Certificate III or Certificate IV in Community Services or onto a more specific area of interest such as Certificate IV in Child Care or Individual Support (Aged Care).

GoTafe Course Guide for 2022 is now available at the following link [VET Delivered to Secondary Students \(VETDSS\) | GOTAFE](#)

## How does VETDSS work?

Students aged between 15-19 complete 1 day a week at a GoTafe campus in our area, while continuing studies at the Shepparton FLC. Studying a VETDSS course will give you a nationally recognised TAFE qualification once you have completed the course. For students to receive their VCAL certificate they must complete one VETDSS course.

# School Based Apprenticeship Or Traineeship

## *Did you know?*

A school-based apprenticeship or traineeship (SBAT) is an apprenticeship or traineeship undertaken by students enrolled in VCE or VCAL programs. Students must be over 15 years of age to participate.

An SBAT gives students the option of combining part-time employment and training with their schooling.

The vocational training components provides credits towards your VCAL certificate, giving you a great head start in completing your apprenticeship whilst you complete your secondary education.

Students that undertake a SBAT will spend a minimum of 1 day a week, including school holidays working with their employer earning an income, whilst gaining valuable hands-on skills and knowledge in their field of choice.

The length of the course depends on the type of apprenticeship or traineeship and the industry and qualifications required.

School based apprenticeships can be completed in a wide range of areas including;

- ◇ Building and construction
- ◇ Bricklaying
- ◇ Electro technology
- ◇ Plumbing
- ◇ Hairdressing
- ◇ Business
- ◇ Community Services
- ◇ Commercial Cookery
- ◇ Animal, equine
- ◇ Horticulture, landscaping, floristry

Many school-based apprentices and trainees move onto a full-time contract with their employer after leaving school, while others choose to continue in education and training at a TAFE or university.

For further information speak with your Learning Mentor who can make an appointment with the Pathways Team and with Rhonda from MAS.

We have a number of students that are participating in the Pit Stop Program twice a week, which is a Lighthouse Project Initiative for Young People, it is designed to match positive role models and mentors with young people.

The aim is to increase work and life skills, improve mental health and increase opportunities for young people by working on small engines and cars under the guidance of volunteer industry professionals.

We are excited to continue this partnership again this term and seeing the confidence students have excitement and opportunities that may come from our students involvement.

## Financial Literacy

Through our partnership with Berry Street, we are offering a financial literacy unit on Tuesday afternoons, as part of a numeracy unit. This unit forms part of a Independent Living Program to ensure students are job ready and aware of their financial obligations. This includes how to apply for a Tax File Number, good and bad credit types and what to watch out for when signing contracts when you enter the work force, be it as a casual, part-time or full time employee.

## Industry Visits

### **GOTAFE, 152-200 Fryers Street Shepparton**

- Guided tour of the campus conducted by Youth Engagement Officers including the nursing, commercial kitchen and automotive spaces.
- See the learning in action and talk to the trainers and students.
- Find out about VET delivered in secondary schools (helpful for making choices for next year's subjects) as well as the TAFE pathway for post-school study
- Learn about the support services at TAFE including literacy/numeracy support, counselling and the Skills and Jobs Centre

### **La Trobe University, 210 Fryers Street Shepparton**

- Explanation of alternative pathways to university including free 6 month Tertiary preparation course and via TAFE
- Informal chat with teachers and student facilitators (including those with alternative pathway to uni)
- Tour of campus including the clinical learning unit (with hands on activity – CPR races) and the recording studio (with option of making own recording)
- Support services available at La Trobe

## YEAR 9 CAREERS PROGRAM: MORRISBY

The Department of Education has implemented a specific Careers Program involving all Year 9 students across the state. In the first stage of the program students will undertake an in-depth, online Career and Profiling Assessment.

Once completed students will be provided with a booklet that outlines various details about personality, skills and what their interest areas are. Student's will be assisted by Simon or their Learning Mentor to create their online account on the Morrisby Website. Below is a link to a video that can give students and parents/carers more information.

Website Link: <https://www.morrisby.com/students>

The second stage of the program will see students having a one-on-one session with an external Careers Counselling Service that will help students to understand the information and to also explore some options for Career and Job Exploration.

## Shepparton FLC Careers Website

All students will have a personal account on our Careers Website that jam packed with different resources to help build a personal profile.

Website: [www.sflccareers.com.au](http://www.sflccareers.com.au)

To access your account follow the steps below

- ⇒ Access the Website via the address above.
- ⇒ Access the top of website next to the FLC Centre logo is a dashboard with dropdown options. Navigate to the end where it says "FOR STUDENTS" and then the first option on the dropdown box will be "STUDENT SECURE AREA", Click on this option.
- ⇒ Enter your Username and Password:
  - Each Student's Username will be their school login, followed by @wssc.vic.edu.au
  - E.G.—if your Student login is FLE0001 then the login is FLE0001@wssc.vic.edu.au
  - For your first login, your password will be SheppFLC1
- ⇒ Once you have logged in, you can change your username to and email if you prefer and change your password.

Once your account is created, you can explore your account and try all the different Career quiz activities, create a resume and start to build your interests profile.

# Structured Work Place Learning SWL

The Structured Workplace Learning Program is a Department of Education and Training initiative designed to increase the opportunities for young people aged 15–19 years of age to improve their skills and workplace knowledge through ‘on the job’ experience via Structured Workplace Learning (SWL) and School Based Apprenticeships/Traineeships (SBATs).

We encourage our students to engage in SWL and Work Experience to give them hands on experience in their field of interest. Students are assisted through the enrolment process and orientation.

Keep an eye out on the Careers board, located on the window outside of the Careers Learning Space

Please see some great opportunities below that you may be interested in, as at 23rd July 2021.
