Message from Roger

This is the first of what will be our fortnightly newsletters, and it comes at the end of a very busy term 1.

It has been wonderful to see the progress our students are making with both their studies and their attendance. Our aim is for students to attend all of their scheduled classes for the rest of the 2017 school year and we ask for your assistance in encouraging them to develop a consistent approach to getting to school each session.

Last year 13, of our students successfully completed their Foundation VCAL and we congratulate them on a brilliant outcome. Many other students have partially completed both Foundation and Intermediate VCAL and we hope to see them complete those studies this year.

Students have had the opportunity to attend a variety of activities and excursions during the term and they will have the chance to attend several others during the year. Information regarding excursions and activities will be provided on the fortnightly newsletters. A reminder for students that they are required to choose electives for the remainder of semester 1, and that activities are open to all students provided they make the commitment to attend those sessions regularly. Students who do not choose an elective or an activity may not be able to attend, due to the capacity of our bus. A reminder also that students should only attend the Centre for their scheduled sessions due to the limited availability of teaching spaces. We hope that a solution to this will be addressed in the near future.
